

## Zetron's Mobile Command-and-Control Application Enhances Safety and Security for Indian Smart City Project

Redmond, WA, December 14, 2017 – [Zetron Australasia Pty Limited](#), a leading provider of mobile integrated communication solutions has been chosen to provide comprehensive mobile command-and-control systems for a smart city project in India. As India urbanizes at a rapid pace, the speed of growth in cities poses huge challenges, but also offers big opportunities. The Indian government has launched the “Smart Cities Mission”, which is an urban renewal program with a goal of developing almost 100 cities all over the country, making them citizen friendly as well as safe and secure.

“Zetron is privileged to be part of this important new project in India, its cities are expected to grow from 340 million people in 2008 to 590 million by 2030,” said Zetron Australasia Vice President & General Manager Ranjan Bhagat. “It’s a testament to Zetron’s reputation for providing reliable, mission-critical grade applications based on our highly scalable and interoperable architecture which not only provide business value but improves citizens’ quality of life.”

Zetron’s Digital Console Systems integrate telephony with both digital and analogue radio control to meet a range of professional applications for public safety, transportation, utilities, oil, gas, mining and private industry. The high availability architecture of these systems provide the flexibility, scalability and resilience mission-critical applications demand.

### About Zetron

Zetron has been designing and manufacturing integrated mission-critical communications systems since 1980. Its offerings include emergency call-taking, CAD, mapping, dispatch, voice logging, fire station alerting, and location service systems. They are expandable, interoperable, and able to support geo-diverse operations. What’s more, Zetron backs its products with technical support, training, and project-management services known for their skill and responsiveness. With offices in the United States, the United Kingdom, and Australia, and a global network of partners, resellers, and system integrators, Zetron has installed thousands of systems and tens of thousands of console positions worldwide. Zetron is a wholly owned subsidiary of JVCkenwood Corporation. For more information, visit: [www.zetron.com](http://www.zetron.com).
