## Zetron to Address How LMR Companies Are Embracing Public Safety Broadband at IWCE 2021 in Las Vegas

*September 27 Panel to Educate Government Leaders on the Connection between LMR Systems and Public Safety Broadband*

**Redmond, WA – September 23, 2021** – Zetron, a global leader in [integrated mission critical communications](#) technology, today announced that Paul Moskowitz, Vice President, and John Martyn, Senior Product Manager, will present at [IWCE 2021: Connecting Critical Communications](#), taking place September 27-30 in Las Vegas, Nevada.

Zetron's Moskowitz and Martyn will speak in a session titled "[How LMR Companies are Embracing LTE / Public Safety Broadband](#)" on Monday, September 27 at 10:15 a.m. PT at the Las Vegas Convention Center. The IWCE Power Session will examine how LMR (land mobile radio) systems are integral to public safety, and how users' LMR systems can be enhanced with the integration of LTE. During the session, municipal and government leaders will learn how LMR providers are embracing public safety broadband.

In May 2021, Zetron merged with the critical communications division of Codan Communications, following Zetron's acquisition by Codan Limited. The merger brings together Zetron's command and control solutions for Call Talking, Dispatch, CAD and Fire Station Alerting, with Codan's fixed, transportable and networked land mobile radio connectivity products.

"So much has changed in the world and at Zetron since the critical communications community was last able to gather in person for IWCE," said Jim Shulkin, Vice President, Marketing at Zetron. "Zetron and Codan Critical Communications will have separate booths for the last time, as the legendary quality and interoperability of both companies have come together, providing new choice and flexibility in end-to-end integrated mission critical communications."

IWCE and Zetron will co-host the "Welcome Back Reception" for all attendees on Wednesday, September 29, 2021 from 5:00 - 6:30 p.m. PT at the Las Vegas Convention Center Rooftop Terrace.

Zetron will have booths #443 and #449 directly opposite each other on the IWCE exhibit floor, where attendees will learn how Zetron and Codan are now [Better Together](#). For more information or to meet with Zetron at IWCE, visit the [event page](#).

### About Zetron

[Zetron, a Codan Company](#), is a trusted provider of [mission critical communications systems](#) worldwide, it's ALL we do.
