

Cybersecurity Hygiene Training

Staying Ahead of Cyber Threats— Training That Matters

- Empower your team to protect themselves, your organization and those you serve.
- SecuLore's Cybersecurity Hygiene Training provides actionable cybersecurity defense skills.
- Anyone who uses a computer or other device, that connects to a network, can practice cyber defense and improve cybersecurity,
- Training is critical to your organization's risk posture.

WHO SHOULD ATTEND?

You!

Anyone who uses a computer!

PREPARATION THROUGH AWARENESS

REDUCE YOUR RISK

- Humans make mistakes. Awareness is the first step in cyber defense.
- Many attacks rely on cyber criminals tricking people into doing something they shouldn't.
- By increasing your team's awareness of cybersecurity vulnerabilities, types of threats, and methods of attack, you reduce your organization's risk of becoming a victim.

ELEVATE YOUR CYBERSECURITY IQ

- An educated team is harder to manipulate.
- Our training provides your organization with best practices, tactics on how to identify cyber threats, and recommended policies from industry leaders.
- Our experts make cybersecurity topics understandable for technical and non-technical audiences.

Together We **CYBER-PROTECT Our Nation's Critical Infrastructure**

4 HOUR TRAINING SESSION

On-Site at Customer Location of Choice
