

Immediate Emergency Incident Response When Every Minute Counts

Rapid Incident Response Deployment

"IT'S NOT IF, BUT WHEN YOU WILL BE VULNERABLE TO AN ATTACK."

Cyber attacks are exponentially increasing in frequency and sophistication. Whether brute force or a simple unintentional mistake, it can provide an intruder a path into your critical network.

INVESTIGATION, IDENTIFICATION: GUIDING YOUR ORGANIZATION THROUGH CONTAINMENT AND INCIDENT MANAGEMENT

SecuLore's CyberStrikeforce™ Incident Response team, stands ready to support your organization in identifying, mitigating and preventing the spread and escalation of an incident. Led by accomplished cyber warfare experts who have extensive experience remediating attacks against public safety and government agencies, our Incident Response team will quickly and effectively respond to your cybersecurity incident.

Scalable deployment of cyber experts and patented tools to work in collaboration with your IT staff, vendors, and organization officials to restore operations.

YOUR ON-SITE AND REMOTE CyberStrikeforce™ TEAM

ACTIONABLE FORENSIC ANALYSIS

- Our expert cyber analysts provide critical insight in determining an effective response and assessing the hazard level of the threat impacting your organization.
- Utilizing the most up-to-date threat intelligence and our extensive experience identifying cyber attacks across the country, SecuLore's behavior-based methodologies are continually updated to ensure that Paladin™ successfully detects and captures critical data from active attacks and potential threats before, during and after an incident.

PALADIN™ DEVICE DEPLOYMENT

- Enables 24x7 SOC incident oversight and in-depth analysis to help your team prevent further compromise of network systems.

A COLLABORATIVE RESOURCE

- Gets your systems back up and online efficiently and effectively.
